SUMMARY

AWS-certified professional with hands-on experience in cloud infrastructure automation and management using YAML, Java, and Python. Quick learner seeking to contribute to cloud-driven projects in a collaborative environment.

EDUCATION

| | | |
|--------------|---|-----------------------------|
| Bachelor's: | Georgia State University | August 2019 – December 2022 |
| High School: | Gwinnett School of Mathematics, Science, and Technology | August 2015 – May 2019 |

WORK EXPERIENCE

| | |
|---|-------------------------|
| Cloud Engineer PINS Consulting LLC | February 2024 - Present |
|---|-------------------------|

- Automated VPC creation using CloudFormation, customizing NACLs, Security groups, and NAT Gateways, reducing infrastructure deployment times by at least 40%
- Implemented an AWS Lambda Python function to automatically extract and store S3 object metadata into DynamoDB table for efficient serverless querying and storage
- Automated EC2 deployment of MSSQL databases and Wildfly servers using a custom AMI and standalone EBS volumes for reliable and cost-optimized deployments
- Utilized AWS SDK for Java to automate S3 operations such as bucket emptying, multipart uploads, and object downloading
- Implemented CI/CD pipelines through CodePipeline and GitHub for automatic testing and deployments of code changes
- Developed a Java automation tool for generating updated monthly invoices for the billing team, reducing processing time to a few seconds
- Automated deletion of obsolete MSSQL records via scheduled SQL queries through SQL agent
- Developed a Selenium Python stress testing tool to simulate high traffic by inputting multiple dummy records from a few minutes to around 20 seconds

| | |
|--|-----------------------------|
| Medical Assistant St. Joseph's Pediatrics | October 2022 – January 2024 |
|--|-----------------------------|

- Addressed parent and patient concerns about vaccinations, bloodwork, and appointments
- Coordinated with various insurances to resolve insurance issues and referrals
- Coordinated with labs to get patient medical samples analyzed
- Updated patient medical information in GRITS database and MDSuite EHR

CERTIFICATES

- | | |
|--|----------------|
| • AWS Certified AI Practitioner | February 2025 |
| • AWS Certified Solutions Architect - Associate | February 2025 |
| • AWS Certified Developer – Associate | December 2024 |
| • Oracle Certified Associate, Java SE 8 Programmer | September 2024 |
| • Java Certified Foundations Associate | May 2024 |

TECHNICAL SKILLS

- AWS Core Services
- IaC thru CloudFormation and Terraform
- Java, Python, and YAML
- Linux
- Collaborative and Ability to pick up new skills
